

KAGEL CANYON ROAD WATERMAIN REPLACEMENT

This project includes work that will benefit District No. 21 customers in the Kagel Canyon area. The work includes the replacement of about 3,700 feet of watermain along El Merrie Drive from Trail 12 to Kagel Canyon Road and along Kagel Canyon Road until Orchard Trail (See Alignment 'A' shown in the map below). Depending on the project bid results, this project may include the construction of an optional alignment replacement of about 1,120 feet of watermain on Kagel Canyon Road from Orchard Trail to the 2" service connection near East Trail (See Alignment 'B' shown in the map below). The project will upgrade the existing 2", 4", and 6" watermains to an 8" watermain, and the objective of this project is to improve water reliability in the system.

Construction of this project is expected to begin by January 2015.
